§9–216.

- (a) In the coastal plain physiographic province of this State, a person may use any of the conventional, on-site sewage disposal systems identified in subsection (b) of this section if:
- (1) The system is recommended by the Department as being the most appropriate; and
- (2) The Secretary does not determine that the installation of the specific proposed system would be prejudicial to public health, safety, and welfare.
 - (b) Systems that may be used under subsection (a) of this section are:
 - (1) A septic tank or aerobic treatment system with:
 - (i) Standard trench or deep trench subsurface irrigation;
 - (ii) A seepage pit; or
 - (iii) A sand mound disposal system; and
- (2) Any other on-site sewage disposal system that the Department in its regulations states is conventional.
 - (c) The Department may adopt regulations to carry out this section.
